```
TensorFlow.js version: 4.16.0                          index.html:20
Lab Assignment 1: Tensor Creation                      index.html:21
Scalar:                                                index.html:26
Tensor                                                 index.html:27
    10
Vector:                                                index.html:31
Tensor                                                 index.html:32
    [1, 2, 3, 4]
Matrix:                                                index.html:39
Tensor                                                 index.html:40
    [[1, 2],
     [3, 4]]
Tensor creation completed successfully.                index.html:47
>
```
