

Assignment 1 - Train Sentiment

FileD:/PRACTICAL%2003/Assignment%201/index.html

POS Best thing I have ever bought

POS Really impressed with the results

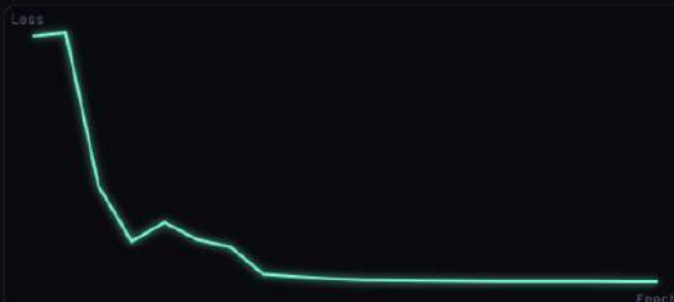

POS Superb performance exceeds expectations

Train Model

TRAINING LOG

Starting training... Epoch 1/20 - loss: 0.7114 acc: 0.4000
Epoch 5/20 - loss: 0.1718 acc: 0.9500 Epoch 10/20 - loss: 0.0088 acc: 1.0000 Epoch 15/20 - loss: 0.0015 acc: 1.0000 Epoch 20/20 - loss: 0.0003 acc: 1.0000 Training complete!

LOSS CURVE

TEST YOUR SENTENCE (AFTER TRAINING)

india won by 10 runs

Predict

😊 POSITIVE | Confidence: 99.8%

Performance Comparison Summary			
Metric	RNN Model	Dense Model	Winner
Final Loss	0.0001	0.0001	🟡 Dense
Final Accuracy	100.0%	100.0%	🟢 RNN
Training Time	3s	3s	🟡 Dense
Architecture	Embedding → RNN → Dense	Embedding → Flatten → Dense × 2	—
Params	Fewer (seq aware)	More (flat expand)	—
Sequence Aware?	✅ Yes	❌ No	—
Best For	Long text, context-heavy	Short text, speed	—

HEAD-TO-HEAD LIVE TEST

i am happy

Compare

RNN

😊 POSITIVE

Confidence: 100.0% | Raw: 0.9995

DENSE

😊 POSITIVE

Confidence: 99.9% | Raw: 0.9989

✔ Both models agree on sentiment
