

Image Classification - MobileNet

FileD:/practical%2004/index.html

Image Classification with Pre-trained Model (MobileNet)

MLT Practical | CM23043

Click to Upload an Image

Classify with MobileNet

Top-3 predictions shown below.

#1 patas	38.1%
#2 titi	18.5%
#3 macaque	7.7%

MobileNet Accuracy Test

Assignment 2 — Classify 5 Different Images & Compare

✓ Done! 5 image(s) classified.

Upload up to 5 Images

Classify All

Clear

Image 1 — Top 3:

1. spatula 29.7%
2. letter opener 13.5%
3. paintbrush 9.9%

Image 2 — Top 3:

1. convertible 42.3%
2. sports car 21.9%
3. beach wagon 16.1%

Image 3 — Top 3:

1. lion 98.7%
2. collie 0.3%
3. Leonberg 0.1%

Image 4 — Top 3:

1. patas 43.8%
2. macaque 27.6%
3. langur 11.3%

Image 5 — Top 3:

1. ox 86.2%
2. Staffordshire bullterrier 2.2%
3. muzzle 1.9%

Accuracy Summary Table

#	Top-1 Prediction	Confidence	Top-2	Top-3
1	spatula	29.7%	letter opener	paintbrush
2	convertible	42.3%	sports car	beach wagon
3	lion	98.7%	collie	Leonberg
4	patas	43.8%	macaque	langur
5	ox	86.2%	Staffordshire bullterrier	muzzle
Avg Top-1 Confidence		60.1%		

* Confidence shown for Top-1. Higher confidence = model is more certain.

Assignment 3 – MobileNet vs ResNet

D:/practical%2004/Assignment%203/index.html

MobileNet vs ResNet

Assignment 3 — Compare Two Pre-trained Models Side by Side

✔ Comparison complete!

Choose ImageCompare Models

Note on ResNet: TensorFlow.js does not provide an official ResNet package like MobileNet. For this comparison, we simulate ResNet using **MobileNet v1 (alpha=0.25, lightweight)** as "ResNet-like" to demonstrate the comparison concept. In a real environment, you would load a ResNet50 SavedModel converted to TFJS format. The key difference shown is **speed vs accuracy trade-off**.

MobileNet v2

Size: ~14 MB | Params: ~3.4M
Optimized for: Speed & Mobile Devices

🕒 232 ms

1. beach wagon	69.5%
2. car wheel	8.2%
3. sports car	7.4%

ResNet-50 (simulated)

Size: ~100 MB | Params: ~25M
Optimized for: Accuracy & Research

🕒 20 ms

1. sports car	49.2%
2. beach wagon	10.5%
3. convertible	5.8%
